

Clamp Manual

PLEASE READ AND RETAIN ALL PACKAGING FOR FUTURE REFERENCE

- Do not overload as this could cause the clamp to fail.
- Ensure the clamp is firmly attached to a stand which is on a stable surface before use. Loose or improper installation may cause the product to fall and result in damage or injury.
- Do not attach the clamp to fragile, uneven, or unstable stands that cannot support the product's weight.
- Tighten the clamp enough to hold securely, but do not over-tighten as this may damage the stand or the holder.
- Keep fingers clear of the clamp mechanism during installation and adjustment to prevent pinching or injury.
- This product contains small parts and moving components. Keep out of reach of small children.
- Use indoors or in dry environments only. Keep away from moisture, extreme heat, or direct sunlight for prolonged periods.
- Check the clamp and joints before each use for wear or looseness. If you notice any damaged parts stop using immediately and contact customer support.

BRACKETS ASSEMBLY

- Depending on the shape and thickness of the pole you wish to attach the clamp you may need to insert the supplied bracket(s) by clipping it/them into the two holes on the inner surface of the clamp opening.
- They fit a specific way in which they will sit flush inside the clamp and will ensure the clamp has a good grip on the post to which it is fixed.
- On certain models these can be stored on the outside of the clamp for safe keeping when not required. The grooves in the bracket slot into the corresponding grooves on the outside of the clamp.
